EXPERIENCE

Weather Forecasting Web App Developer

Project 1 :

📅 2024   📍 Tirupur

- Weather Forecasting Web App
- **Technologies Used** : Java, Python, HTML, CSS, Open Weather API
- **Description** : Built a web application that provides real-time weather updates and forecasting using the Open Weather API.
- The backend, developed in Java, handles API integration and user location services
- Python was used for processing historical weather data to provide trends and predictions
- The frontend was designed with HTML and CSS for a clean, user-friendly experience
- Key Features: Real-time weather data, location-based forecasts, trend analysis, responsive design

Personal Portfolio Website

project 2 :

📅 2024   📍 Tirupur

- Developed an interactive portfolio website using HTML, CSS, and JavaScript to showcase technical skills and projects.
- Dynamic Theme Toggle: Enables smooth transitions between light and dark modes for better accessibility.
- Engaging Animations: Features animated text, a floating profile image, and scroll-triggered section reveals to create an interactive user experience.
- Responsive Design : Optimized layout for seamless viewing on mobile, tablet, and desktop devices.

  Technical Skills Displayed :
- Front-end Development: Proficiency in HTML, CSS, and JavaScript.
- UI/UX Design : Creating engaging and visually appealing animations.
- Version Control : Integrated GitHub link to demonstrate familiarity with Git for project management.
- Responsive Web Design : Ensured compatibility across various devices and screen sizes.

EDUCATION

Bachelor of Computer Application

park's college

📅 08/2022 - 05/2025   📍 Tirupur

- Bachelor of Computer Application

SUMMARY

A passionate and skilled BCA student with hands-on experience in back end development using technologies like Java, Python, HTML and CSS. Proficient in developing responsive web applications, including a weather forecasting app personalized recommendations. Certified by The Linux Foundation.
